DIRECTOR OF AGRICULTURE & FISHERIES.

Subject:- The Government Farm, Acre - Fodder 1945/46.

Reference:- Your AQ/5/8/2/23 of 1.3.45.

As far as the Horticultural Service is concerned, the points which arise from your above-quoted letter may be summarised as follows :-

1. I would welcome a general Departmental scheme for purchase (or supply) of Departmental requirements throughout the year. The present proposal is, however, only a 3 months arrangement in view of impending decontrol.

2. Mr. Cameron's fodder problem (and presumably also Mr. Fiat's) covers a wide range of feeding stuffs. My Service fodder problem is, however, purely that of feeding mules - barley and tbn. Tbn is not listed by Mr. Cameron and, as regards barley, whilst the other feeding stuffs may rise in price if decontrolled, there seems every probability that the barley price during the period in question will continue to drop. Barley has recently been more or less readily available on the free market and with a dropping price and a good crop expected in the South the odds seem to be that the price will continue to drop and, as such, what amounts to a market gamble with Government funds would not appear to be justified with barley.

3. Some of my Stations have in any case already purchased barley supplies which will carry them well on the way to the next harvest-market, around mid-June, and this must first anyhow be checked up before I can state what would be our requirements were we to purchase as envisaged in your above-quoted letter. This check up is now being done.

2. In general, however, it would not appear that the Horticultural Service should purchase any of its requirements from this Advance Warrant.

Government has approved your proposal for purchase of a 3 months supply of fodder and an Advance Warrant in the amount of EP. 5,000.- has been issued.

2. I suggest, therefore, to arrange immediately for placing the relevant order after consulting the Principal, Kadoorie Agricultural School, Mt. Tabor, the ~~Chief~~ Horticultural Officer, Jerusalem, in respect of Horticultural Stations, and the 5 Agricultural Officers in respect of Agricultural Stations.

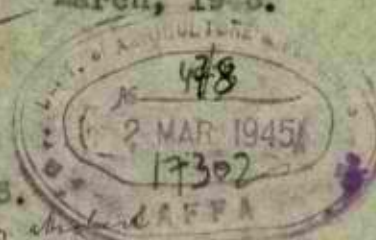

3. It is considered more economical to order in bulk, if practicable, and the relevant bills should be forwarded after certification and taking on ledger charge, together with quotations or respective explanations to this office for settlement.

I understand that feeding stuffs will be decontrolled as from the 1st April, 1945, and it is more than likely that prices will increase.

2. It is suggested that Government might be asked for an advance warrant to purchase three months supply, the money to be refunded in April from the new Estimates.

3. The requirements are:-
